## WORK EXPERIENCE & ACCOMPLISHMENTS

February 2013  
-Present

### MAGA DESIGN INC. /// DESIGN INTERN

- Increased the amount of registered users for our visual portfolio application tool by designing and developing the landing page
- Enabled user testing for USPS's new marketing platform, Postal Social, by mocking up the site's UI and usability in UXPin.
- Drove the production for a custom product ahead of schedule by doing research, contacting several vendors, and mocking up a prototype in-house
- Facilitated the print production process within the company by creating a print request form
- Helped make employees aware of announcements and meetings in the company by designing and coding a dashboard display for the lobby.
- Enabled automated website testing by writing a script using testing framework, PhantomJS

December 2013  
-Present

### JAB'ARGAN /// FREELANCE DESIGNER

- Created brand by designing the logo, marketing material, packagin and other various touchpoints
- Increased product sales by creating a merchant site using Volusion
